PROFESSIONAL OBJECTIVE

MCA graduate with hands-on experience in full-stack web development, Android apps, and computer vision. Quick learner with strong teamwork, problem-solving, and project management skills — eager to contribute to a dynamic engineering team.

PROJECTS

CampusCrave — Campus Food Ordering System

- Built a campus canteen food ordering platform with secure auth, cart, combo offers, and Razorpay integration.
- Implemented unique group ordering & split payment feature with ML-based food demand prediction.
- Developed REST APIs for efficient frontend-backend communication.

Stack: *React.js, Flask, MySQL, Python, Razorpay, GitHub*

Real-Time Human Detection & Counting — Computer Vision System

- Developed a CV application to detect and count people in live video streams with unique ID tracking to avoid double counting.
- Applicable for crowd monitoring, security surveillance, and retail footfall analysis.

Stack: *Python, OpenCV, GitHub*

Nutrition Analysis App — Android Application

- Built an Android app using Google Vision API to extract nutritional data from food images with SQLite-backed history tracking.

Stack: *Java, Android Studio, SQLite, Google Vision API, GitHub*

TECHNICAL SKILLS

Languages

Java, Python, JavaScript, HTML5, CSS3

Frameworks

React.js, Node.js, Flask

Database

MySQL, SQLite

Tools

VS Code, Eclipse, Postman, Git, GitHub, Android Studio, IntelliJ

Concepts

OOPs, SDLC, Agile, REST APIs

EDUCATION

Master of Computer Applications (MCA)

Pimpri Chinchwad University, Pune

CGPA: 8.54

2024 – 2026

Bachelor of Computer Science (BCS)

K. J. Somaiya College, Kopergaon, Maharashtra

CGPA: 8.38

2021 – 2024

Class XII (HSC)

Shri Saibaba Junior College, Shirdi, Maharashtra

88.17%

2020 – 2021

CERTIFICATIONS

- Training Course In Java – Esteem Institute (Jan 2024)
- Training Course In C – Esteem Institute (Dec 2022)
